

THE CALGARY CALL

VOLUME XXXI NO. 46

GLEICHEN, ALBERTA, WEDNESDAY FEBRUARY 1, 1939

SUBSCRIPTION \$2.00 PER YEAR

Meeting of Taxpayers Show Town's Financial Position Very Favorable

The annual meeting of the taxpayers was held Friday evening in the Community Hall as scheduled. Those present, with a few uninterested in the different reports.

In a few remarks the mayor stated that every taxpayer would be supplied with a copy of the financial report. He said that it was quite likely that some taxpayers would find some features of the financial statement not to their liking some things which they might reasonably complain of. The duties of the council members were varied. No council as yet had been able to find a painless method of extracting \$15,000 from the town. The citizens council had as yet succeeded in spending that amount of money in a manner satisfactory to each and every taxpayer.

However, whatever defects the financial statement of 1938 might show, he believed that the taxpayers would discover in it some things which they would agree. He mentioned the outstanding unpaid debt which ended in 1938 to amount to almost \$6,000 which was all paid off during the past two years. The \$15,000 irrigation project was now almost two thirds paid. He thought the taxpayers would find it very hard to see another town made in relief costs in 1938. Town relief should not be a thing any more.

The cash balance to the town's credit of \$13,389, was the largest in a good many years and would enable the council to finance easily until April 1st or even later. These as well as other favorable features of the financial statement showed that some things had been made and might, in the opinion of the taxpayers justify the highest mill rate of 1938.

With reference to the three council vacancies, these were in the competent hands of the taxpayers. He hoped that the practice of electing a year ago and continued last year of holding a spirited contest to fill all vacancies would be carried this year. While Calgary and many other places complained of never being able to get out more than 50 per cent of a vote at their elections, Mr. Gleichen was always able to get out more than 100 per cent. He felt that the taxpayers would want to pick and choose who could represent them on the council.

Concluding he said that some progress was made in the town's standing in 1938. No one person on the council could take or wished to take the credit for it. It was two years credit was due those council members who faithfully attended the meetings. Much credit was due the secretary, Mr. Phythian and Mr. Leaver, who both gave excellent service to the town, but the greatest credit of all was due the taxpayers who made progress in 1938. A copy of which you have before you, it would appear that the town is in a vigorous and healthy condition as its records show. You will recall that at the end of 1938 the town carried accounts payable of \$6,000.00 and at the end of 1938 the amount of the accounts payable as exhibited by the balance sheet amounts to only \$1,585.50 while the available cash in the bank at the end of 1938 amounted to \$831.14, while at the end of 1938 the amount was over \$2,500.00. The 1938 tax levy and penalties less the discounts and cancellations shows a decrease of \$602.11 over 1937, while the municipal collection in 1938 shows an increase over the previous year. There were no bank loans outstanding at the end of the year. The town met its debtors' payment when due. There is now outstanding indebtedness of \$5,826.23 which equals over a period of three

payments the final payment being in 1941, together with the interest accruing each year. So that in 1941 the town will be entirely out of debt, and with a few years like the past one should be in excellent shape.

I note that a deficit is shown in the waterworks operation. This is accounted for by the fact that the water frontage tax of \$412.77 has not been collected to this account, also the two heavy expenditures of re-covering the reservoir \$48,924 and the laying 200 feet of new 3 inch water main amounting to \$61,550 have both been written off against this year's operation. While both of these expenditures have a life of around twenty years, and if written off at that basis would show an operating profit of \$14,000 instead of deficit.

In my remarks at the annual meeting in 1937 I mentioned the reputation of the property to the town, which at that time the uncollected taxes on these properties amounted to \$16,725.71. This figure now stands at \$22,107.41. Twelve parcels were acquired in 1938, and several parcels were up for sale. Of this \$22,107.41, very little has been realized in cash. During 1938 from rents and sales of this property there was realized \$412.85. Mr. Gleichen will notice a considerable decrease in the relief costs during the year 1938 over previous years. This he will notice in the very fine city supervision, and actual needs have been taken care of. The actual amount of relief given in 1938 amounted to \$84,044 of which the town has received back \$48,535.51 to the end of the year. At the end of the year we had only two rates, and one provincial transfer.

During the summer a complaint was made against the town by an officer recipient. The case in this connection will be heard in Gleichen in March next.

Councillor L. Michael chairman of the waterworks committee read the following report on the waterworks: On December 29th, a major leak occurred in the standpipe at a distance estimated to be about 30 to 40 feet above the ground. This was found to be beyond repair and it was thought that the tower could not be used, and as an emergency measure the council procured and installed an auxiliary pump to pump direct into the mains. The capacity of the pump being 100 gallons per hour. No. 5 pump being connected to the main supplying 285 gallons per hour; gives a total delivery of 740 gallons per hour. The cost of this installation was \$186.28. While this gives adequate water for domestic purposes the town is at present without fire protection.

The matter now rests with the taxpayers of the town as to whether the tower should be put back into repair, and the fire protection made adequate. If fire protection is desired it would be necessary for the taxpayers to petition the council to have the necessary repairs made and the tower put back into operation as early a date as possible.

In order that no time should be lost should the taxpayers decide that the tower should be repaired, the council has secured the services of engineers of the Calgary Power Company, and an expert from the Dominion Bridge Co. of Calgary to examine the condition of the tower and standpipe and give an estimate of the cost of repairs required to put this back into operation, and the figure submitted by the above concerns is \$2,500 for which they will supply and install one quarter inch line pipe approximately 15 feet diameter at base of existing tank bottom; take out existing floor and overflow pipes; supply and install new 8 inch cast iron flanged rise pipe complete with new expansion joint, with 8 inch base cast iron at the bottom take off and replace floor-piping casting around rise pipe; flooring on all new lumber any salvage will be credited to the town; cleaning and painting interior of the tank, printing and painting 50 feet of pipe. This is thought, will put the tower back into

ITEMS OF INTEREST OF THE TOWN AND DISTRICT

Mr. John Korfoed who has been ill is now able to be up and around again.

The annual congregational meeting of St. Andrew's Church will be held in the Legion Hall on Thursday February 2nd at 8 p.m. The different organizations of the church will present their reports at this meeting. The election of officers for 1939 will also take place. All interested are invited to attend. Light refreshments will be served.

The dance and card party held at Living Spring school Friday evening was very well attended and much enjoyed by Mr. Grant and son, and Mr. Macdonald and son. The music was in tune with the younger folks as no dances were missed by them. First prizes were won by Miss Helen Bonnet and Fred Bennett. Consolation prizes went to Miss Cora and Charlie Bennett. With all having such a good time it is expected that the party will be announced shortly.

On Saturday afternoon the Crowfoot Creek Stubble Jumper* met their first defeat since they were organized, in the hands of the Aces. The Aces made a 11 goal to the Rogers two. Manager Eddie Holland could not account for the defeat, and Coach N. McMillan was so overcome with emotion that he had no talk to offer. From other sources it was learned that the Stubble Jumpers had been accustomed to playing on level ground between the canyon walls of Crowfoot Creek. Here they were faced with a new situation. The Aces pulled for boards and the bends in the stream for on the side line and the pretty girls on the side lines—well they just couldn't get going.

Should it be decided to have the tower repaired and put back into operation, the question then to be considered would be the mains. The capacity of the tower is 50,000 gallons which gives a pressure on the mains of from 60 to 80 pounds. With the mains as they are today it is only possible to carry 20 pounds pressure. Risk means from 10,000 to 15,000 gallons of water in the tank. In order to put the mains, and the tower and standpipes in shape, that is, replace to the tower and standpipes, and renewing the old existing mains with 8-inch C.I. pipe and connected to all hydrants, and the hydrants repaired, bringing the whole water system up to standard the estimated cost would be \$14,000, or the alternative of disposing of the entire system to the Calgary Power Company to be operated by them.

This is a matter for the taxpayers themselves to decide by petitioning the council, either to arrange to make the necessary repairs or the alternative as stated above.

When the above report was finished a discussion arose in regard to the handling of the water system by the town. It was stated that over \$75,000 had been spent since the system was put in but only a few of the taxpayers had benefited by it. The council statement showed a deficit in the water works this year and it was stated that a thousand dollars had been spent more than the revenue taken in from it. It was explained that the reason for the deficit this year was that frontage tax of \$412.77 was levied for water works revenue had been left out of the revenue account; also the cover over the reservoir and laying of 250 feet of new main amounting to over \$500 had been charged against the revenue account.

Mr. McQueen moved a resolution that the council be asked not to expend another dollar out of the general fund to operate the water system other than revenue derived from it, and that it be a self-supporting basis, and if it cannot be water and the water users want to let them operate it. The resolution was seconded by Mr. B. A. A vote was taken and by count there were six for the resolution and seven against.

Councillor MacDonald chairman of (Continued on another page.)

HOCKEY

One of the best hockey games of the season was played Monday night when the Calgary Jimnies played the Gunners, the visitors winning when they made the final goal seconds before the game ended. The score was 5-4. The first period was low on account of a light fall of snow. The Jimnies had the best of it during the first half making Roberts save seven times before the Calgary goalie had a save chalked against him. Before the period ended Calgary had 11 shots on Glolich, while the Gunners had 10 on the Jimnies net. The visitors scored first when Hughes pulled the twine. Later scored for Glolich from B. Brown, and C. Brown. Tarves took a shot from the blue line to put the Jimnies up 2-1. On four minutes after the start the visiting goalie had a hot time to save his net.

The second spasm saw the Jimnies score two times in succession, once by Stuart and the other by Simpson. The local fans then put n the pressure and for minutes at a time held the play in the Calgary area, bombarding the net from all angles. This had the spectators on their feet in an uproar. Finally P. Brown picked up Norton's rebound to score for the locals. Almost immediately after P. Brown slipped the disc to Clifford who banged it home to make the score 4-3. For the visitors. Before the period was over the local players were tired from their efforts.

The third saw Glolich still stopping on the gas and kept the Calgary goalie busy shooting out puck. Roberts had a few anxious moments. Finally Cam Brown slammed in a counter to tie the score. From then on both teams tried desperately to win the tie, when with just seconds to go Hunt for the visitors broke away and sliding the defence scored to win the game.

Referee: Nelson and James. Gleichen lineup: Roberts; Murray, Maynard, T. Brown, Bogle, Norton; C. Brown, B. Brown, Lester, Clifford, P. Brown, Laasko.

C. P. R. TRAVEL BARGAINS EAST

An opportunity to travel east on Special Bargain Fares will be given by the Canadian Pacific Railway from February 18th to March 4th inclusive, according to H. L. Phillips, ticket agent for the company.

This arrangement, popular in other years, admits of a 45-day late winter and early spring holiday, and permits stopover at stations Winnipeg and east.

Three classes of tickets are provided—Coach, Intermediate or Standard, the latter being good on sleeping cars of class designated, upon payment of usual berth charge. Children five years and under twelve will be carried at half fare.

DAIRYMEN PLAN ANNUAL CONVENTION

The annual convention of the Alberta Dairymen's Association will be held in the Palladium Hotel, Calgary, Tuesday, Wednesday, Thursday, February 7th, 8th and 9th. Arrangements and plans were discussed at a committee meeting recently at which Mr. J. R. Sweeney deputy of minister was present.

Among the outstanding speakers at the convention will be Dr. W. E. Petersen of the Faculty of Agriculture University of Minnesota who will speak to the general convention on Tuesday evening and then to the producers section on Wednesday afternoon. Dr. Petersen is a direct, clear and forceful speaker, and is highly qualified in matters pertaining to milk and cream production. His address on Tuesday evening will be broadcast over Radio Station CFPC. The producers' section will also discuss the subject of the Dairy Boath head of the economics division of the marketing service of the Dominion Department of Agriculture, who will speak on recent surveys that his staff has made pertaining to milk and cream production costs.

Mr. W. C. Gaudin, associated director of the Dominion government grading service, and Dr. E. H. Wood, head of the dairy research division of Dominion

U.F.W.A. MEMBERS HAVE MEETING

Mrs. A. N. McLeay was hostess to the ladies of the U.F.W.A. at her home last Thursday. The meeting was called to order by Acting President Miss Goodwin. The opening songs were led by Mrs. Quennell. The minutes were read and bills ordered paid. A bulletin on Handicraft was read by Mrs. McArthur and proved interesting. A paper on "What I should be thankful for" was read by Mrs. McLeay and enjoyed by all. The president was reported sick and also one of the members, Mrs. J. W. Hutcheson. The secretary was instructed to write them. Discussion took place on making a quilt for one of the Gleichen ladies and it was left to Mrs. McKeever to interview her on price. The acting president then presented Mrs. McKeever with a small token of appreciation for her good will and helping members put quilt blocks together. After a social hour of coffee and usual lunch the meeting adjourned to meet again on February 10th at the home of Mrs. J. W. Hutcheson.

UNITED CHURCH

Rev. J. N. Wilkinson, Minister.

Mrs. M. Birch, choir leader.

Miss Marjorie Birch, pianist.

11 a.m. Church School.

7:30 p.m. Divine Worship. Subject: "The Parable of the Wise and Foolish Builders."

There will be a story for the girls and boys entitled, "Sweetest, Than Honey."

RATEPAYERS ANNUAL MEETING

The irrigation, fire, light and police committee handed in the following report:

Regarding irrigation, The lake was cleaned out early in the spring before turning in the water which was turned on in May and shut off in October or about 10 days later than usual on account of the exceptional weather conditions. Pipe lines were maintained in good repair and repairs were made to the system wherever found necessary. A line was laid from the main on 9th Avenue and Adam Street to the cemetery, and a good supply of water is made available in all parts of the cemetery. Some repairs were made to the automatic switch at the pumping station. The amount of water used during the year was 60 acre feet amounting to \$120. Eventide Home water from the lake paying thereby \$21 a year. This year the town paid off \$300 to the Gleichen Agricultural Association for the land used for the lake. There is now a balance of \$115 owing on this land.

One fire alarm was turned in during the year this was a chimney fire but was brought under control before any actual fire broke out. The fire equipment was given a thorough overhauling, the chemical equipment and wagons were painted and repaired where necessary, and new chemical boxes were made. No new hose has been purchased since 1936. There is at present about 800 feet of hose in fair condition. The city pressure for the tank to operate the whist is supplied by a small compressor installed in the fire hall which has given very satisfactory service since its installation over a year ago. At the present time the town water system is temporarily out of repair and the town is without fire protection.

There were no convictions during the year. No extra police were put on at Halloween, no complaints had been made to the police. A police patrol was maintained in the town during the fall months.

The lighting of the town is supplied by the Calgary Power Company who have a representative resident in the town. There were no serious interruptions during the year. Last year a committee known as the Southern Alberta Power Consumers' Association approached the town for membership. The objects of the committee were to investigate with a view of obtaining lower rates, but as no benefit has so far been obtained, the town has withdrawn from the committee paying \$25 out of the \$50 assessment, in 1937 with an additional assessment in 1938 of \$30.

Medical Health Officer Dr. Farquharson reported the health of the town had been exceptionally good for the past year. There were no cases of contagious or infectious diseases. There was no visit from the provincial sanitary inspector during 1938. The dairies, pool rooms, hotel and restaurants are in good sanitary condition.

The annual school meeting followed. Reports were read and adopted. There was no discussion. The inspectors' report was very favorable to all the teachers and stated the school was

conducted in a very efficient manner. Also that good progress was made in the new course of studies. The meeting was informed that Messrs. Boyd, Farquharson and Dafen's terms as trustees were up and that an election would be held to fill their vacancies.

What's "Boucle"?

POSSIBLY you may have seen the word "Boucle" here and there throughout the Catalogue, usually in connection with a fabric or yarn. Do you know what it means?

Well, it's a French word meaning "curled." Boucle yarns are made with little loops that give a soft, rough, snuggly appearance to the fabric. Usually these yarns are all-wool and sometimes wool with a cotton core. These made from rayon are used greatly for knitting.

When the term is applied to women's coat fabrics, it indicates that, as a rule, all-wool Boucle yarns are used in both directions in the weaving of the fabric. This makes a lovely coating, usually found in higher-priced garments.

Occasionally you may be curious as to the meaning of some name appearing in the Catalogue. Write to me and I will be glad to describe it for you and give you any information that is available concerning the particular material. On this and any other question pertaining to Fashions, I am at your service. Write me a line—you may be sure of my personal attention.
